San Francisco, CA ... Dropwise Essentials, a green business that makes all-natural personal care products has created an *exceptional line of aromatherapy body care products* for consumers and spa professionals who demand the best in personal care. Pure-plant synergies *skillfully blended* to nourish, comfort, and heal the body while *delighting the senses*, are at the core of this luxurious line that promotes and supports inner vitality and outer beauty through regular use. The absence of synthetic chemicals, petroleum ingredients, or over-processed natural ingredients demonstrates the care and integrity with which the products are made and the company's commitment to making safe products that sustain health and wellness. Pharmacist-endorsed, Dropwise products are *hand-crafted in small batches* to ensure *efficacy and freshness*.

Owner and creator Donya Fahmy, who studied with Dr. Daniel Penoel from France (a medical pioneer in the field of aromatherapy) was inspired by the curative powers of essential oils to develop the **five products** and **nine unique essential oil blends** in the current Dropwise line. "I began dabbling in aromatherapy as a hobby. As I learned more about different essential oils I experimented with them to address some of my own health issues. When I saw real results, I became hooked on the idea of creating a body care line that would bring the tremendous benefits of this modality to an overworked, stressed-out, and health-challenged populace."

One can immediately experience the difference with these "close-to-nature" products that combine certified organic skin care and essential oils, herbs, and hydrosols to represent the best of what the plant world has to offer. **Nourishing Hand and Body Lotions** that *quickly penetrate*, moisturize and hydrate giving skin a silky and youthful feel! **Certified organic Moisturizing Body and Massage Oils** are *ideal for all skin types*. Perfect for after waxing and for dry, sun-drenched, or sensitive skin, they also offer just the right amount of slip for a variety of massage techniques. **Gentle Cleansing Body Washes** can be used before a massage or cellulite treatment and to wash the hands. The hemp, coconut, olive oil, and soothing aloe castile base provides a rich lather without SLS or other added surfactants, and rinses clean, *leaving skin smooth and soft*. The **Aromatic Mist**ers breathe new life into the air and can be used to create a *relaxing or gently stimulating environment* for massage or other bodywork. They are also great on the face after any skin treatment. **Aromatherapy Lip Balms** glide on silky smooth and remain that way until fully absorbed --leaving no sticky or waxy residue behind. Can be used alone or as a gloss over lip color.

## DROPWISE ESSENTIALS WHIPS UP BLENDS FOR BETTER LIVING

PAGE 2-2-2-2

Dropwise blends essential oils for the *sheer pleasure and joy of healthful living*. **Inspiration**, a *mood-enhancer* with citrus, ginger, and elemi bring on that much needed smile! **Divine** combines lavender, ylang ylang, and vanilla. Its heavenly scent is *comforting* and nourishes the skin. **Revitalize** is a *restorative* blend that evokes fresh mountain air. Made with *clarifying oils* of pine, rosemary, and eucalyptus, this blend cleanses and tonifies, --*strengthening the immune system*. **Refresh** is sensational after a workout, when *flushed or overheated*. This *cooling and invigorating* blend is a special mixture of spearmint, peppermint, lime, and patchouli. **Soothe** restores balance and induces relaxation for *stress and anxiety*. The combination of chamomile, lavender, clary sage, and geranium oils *calms the mind* and is especially soothing to irritated or inflamed skin.

Dropwise products are retail-ready. Professional discounts are available for individual practitioners. For more information visit <http://www.dropwise.com>. Wholesale and bulk inquiries should be directed to [sales@dropwise.com](mailto:sales@dropwise.com) or 866-418-1682.

Founded at the turn of the new millennium, Dropwise Essentials is a San Francisco-based manufacturer of pure aromatherapy and natural body care products that nourish the body and feed the senses, making anyone who uses them feel and smell great! Our mission is to create high quality, safe, and pure plant-based products that promote healing and well being.
